## EDUCATION

**Medi-Caps University**                                                      Indore , MadhyaPradesh
*Bachelor of Technology in Computer Science*                                  *Aug 2021 - July 2025*
- Cumulative GPA : **8.42/10.0**

**Servite Convent Sr.Sec School**                                            Hoshangabad , MadhyaPradesh
*CBSE (class XII) PCM*                                                        *2021*
- Aggregate percentage : **82.8**

**Servite Convent Sr.Sec School**                                            Hoshangabad , MadhyaPradesh
*CBSE (class X)*                                                             *2019*
- Aggregate percentage : **84**

## WORK EXPERIENCE

**Teaching Assistant**                                                        Jun 2022 - Oct 2022
*Coding Ninjas*                                                               *Remote*
- ∗ Assisted **50+** students in learning **C++** and **Data Structures and Algorithms**
- ∗ Took doubt session and resolved **250+** doubts with an average rating of **4.62**
- ∗ Helped students in their assignments

## TECHNICAL SKILLS

- **Programming Languages**: Python, Core Java, C/C++ , Javascript , Typescript
- **Full-Stack Web-Devlopment Technologies**: Node Js , Express Js , MongoDB , Mongoose , React Js , Basics of Next Js , React state management in Recoil

## PROJECTS

**Full-Stack E-commerce app**
- ∗ Developed an **E-commerce application** with TechStack - **Nodejs Expressjs as backend and Reactjs as a frontend and mongodb as a database**
- ∗ Functionality - **Cart** function , user can **filter** the products according to **price range and category.**
- ∗ User can **place order** , **Track Order** , Integrated **Payment gateway** allows to make payment , **Search box** helps to find specific products.

**Video Call app**
- ∗ Developed **Video call** based web application using **WebRTC , Sockets.io** and frontend on **Reactjs**.
- ∗ Functionality inlcudes **Video Calling** using a room Id which should be same for both the users

**Netflix Clone**
- ∗ Developed a **Full-Stack** Netflix clone using **Nodejs , Expressjs** as Backend and Frontend on **Reactjs** and **Mongodb** as a database
- ∗ Functionality inlcudes **login , signup** , **Responsive** Trailer of movie and most resemble with Netflix web app

## CODING PROFILES

- Solved **400+ Data Structures and Algorithm** questions on **Leetcode**
- **Expert** at **CodeStudio (Level 7)**.
